

## COMPLICATED

By Wayne Visser

Is it just me ...  
Or does life get simpler  
And love more complicated  
The longer you live  
And the more you love ...  
Or is it just me?

Or maybe ...  
It isn't life that gets simpler  
But the simple things in life  
That turn out to be more important  
And that make life more worthwhile ...  
Just maybe?

And perhaps ...  
It isn't love that gets complicated  
But me who has become more complex  
Who is now more interesting  
And who is more difficult ...  
Just perhaps?

Is it just me ...  
Or does love get deeper  
And life more superficial  
The longer you love and  
And the more you live ...  
Or is it just me?
