

MILLENNIUM

Spellbound

By Wayne Visser

Countless clocks count down ...
Trapped in a time tied Hall of Mirrors,
We synchronise our beliefs
And accept the reality reflected

That a pointless point in time
On a superficial scale of history
Marks a new millennium
For all the people of the planet

Yet not so for the African Animist
The Judaist, or the Muslim
Neither followers of Confucius
the Buddha or Lao Tzu

Only those in religions self-absorbed -
Christian? Conservative? Corporate?
Only their narrow minds
By 2000 are spellbound
