

MOM'S 60<sup>TH</sup>  
Tell Me Your Story  
By Wayne Visser

Tell me your story - I am here listening:  
About higher souls and chosen roles  
And learning lessons since your birth  
About taking part in life's great art  
And bringing healing to the earth

Tell me your story: I want to know all  
About swarming bees and chimpanzees  
And throwing stones for your pet dog  
About dairy rounds and farmyard sounds  
And fairies inside hollow logs

Tell me your story: I want to know all  
About love affairs and riding mares  
And shooting trophies that you won  
About teenage flights and party nights  
And meeting him - that special one

Tell me your story: I want to know all  
About wedding bells and baby spells  
And building your own house of dreams  
About paddling days and bush-war frays  
And learning what true friendship means

Tell me your story: I want to know all  
About taking stands and moving lands  
And starting over once again  
About camping trips and scouting tips  
And growing esoteric ken

Tell me your story: I want to know all  
About hiking trails and mother's tales  
And children growing up too soon

About wedded hands and shifting sands  
And dancing to the Nana tune

Tell me your story: I want to know all  
About crossing seas and great oak trees  
And feeling that you had come home  
About gardens green and countries seen  
And shedding light where're you roam

Tell me your story - I am listening still:  
About loved ones lost and heartache's cost  
And moments filled with joy as well  
About living true and being you -  
There's such a story left to tell!
